

UPDATING THE CENTRALIZED SYSTEM

To update the centralized version of the CLAIMit application, please follow the next simple steps;

1. Install the CLAIMit update file (***CLAIM-it Update vHead (build 2022052616)_centralized***) by double-clicking on the file.
2. Login to the main section of the centralized application using **username: “admin”** and **password: “admin”** (*i.e. if it hasn't been changed by the user*).
3. Click on **Reports** and next to each provider list in the report, click on the **“Update basedata”** button to update the respective provider.
4. Logout and login, selecting the provider of interest. The **Options** section of the application should now reflect the new tariff version.
